

# Museum goes European!

DORNOCH'S Historylinks Museum has recently produced foreign language versions of its popular Trail Guide which takes visitors on a selection of routes around the Dornoch area, highlighting historic landmarks along the way.

Museum Curator Peter Wild is pictured at the recently re-landscaped Mercat Cross site with the new French, German, Spanish and Gaelic translations.

He commented: "Local people are very pleased with the sympathetic improvements which have been carried out in the area surrounding the Mercat Cross, which is one of the locations featured in the guide."
