Dear Sir,

Public Utilities Street Works Act 1950
Undergrounding LV Line, Sutherland Road, Dornoch

With reference to your enquiry regarding the above I have to inform you that the Board propose to lay approximately 210 metres of 4 core x 185 sq.mm. districable underground cable in proposed new pavement and street joint to existing 5 core cable. Lay 4 core districable from proposed 4 core cable to LV pole 1F in Cromarty Road. Lay and install six single phase services to existing properties.

The Board propose to carry out this work, as shown on the enclosed plan, at no cost to your Council provided it can be carried out at the time the new pavement is being laid and the Board not being liable for any pavement reinstatement associated with the work.

I trust this explains the position and look forward to receiving your acceptance of the proposals.

Yours faithfully,

For Area Commercial Officer.

Duct into West Church Hall.

F.A.O. Mr. R. Munro

Dear Sir,

Sutherland Road, Dornoch - Road Reconstruction

I refer to the meeting held at your Brora Offices on Wednesday, 22nd. March, 1989, between Messrs. Munro and Moore of our respective Departments, concerning the above road reconstruction and the implications with respect to the integrity of the water main.

I confirm the conclusions of the aforementioned meeting as follows:-

1. The length of the existing main from Cromartie Road to the terminal scour will be diverted in 80mm diameter uPVC, clear of your new kerbline, by my Dornoch operational staff.
2. Your appointed contractor will supply excavator and operative for the mainlaying.
3. My Division will finance the extension of the diverted main from a point adjacent to the existing terminal scour, in Sutherland Road, to the westerly end of your intended works. To this end I would be pleased to receive your contractor's rate for excavating a pipetrack track for an 80mm diameter pipe to a depth of 900mm below finished road level.
4. The concrete surround on the existing fireclay sewer is to be replaced between the terminal manhole, adjacent to the District Council Housing, and the manhole at the entrance to the West Church Hall Car Park.
5. My Division will finance the connection of an 80mm diameter uPVC pipe into the terminal manhole, together with the laying of an 80mm diameter pipe from this connection to a point at the commencement of the grass verge on the north side of Sutherland Road. My Dornoch Office will supply the materials for this work, to be carried out by your contractor at a cost to be notified before commencement of the work.

Sutherland Road, Dornoch - Road Reconstruction

In connection with item (1), I have opened a rechargeable code payable by your Department on completion of the appropriate section of the work.

Should you wish to discuss any of the aforementioned I would be pleased if you would contact my Area Engineer, Mr. Moore, at the above office.

Yours faithfully,

Handwritten signature of C. P. Moore in cursive script.
