

CAMORE-SYDERA  
WOODS COMPLEX

(MASTER COPIES)

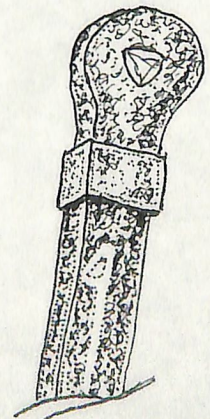

# HUT CIRCLES : CAMORE WOOD : DORNOCH.

FROM ORDNANCE SURVEY: 1 IN 10560 OR 6 IN = 1 MILE. NH 78 NE: REF 7716.3933.

(SKETCH: NOT TO SCALE).

Set on top of a mound, to the east side of the Forestry Road, this has probably the most complete wall structure of all the local Hut Circles. Though smaller in size the floor depth varies from 3-5 ft. No. 5 Circle has an ENE entrance instead of the traditional SE entrance. A straight ditch and up-thrown wall a little to the East is modern and probably forestry drainage, despite it comes up, over and down the hillock. No. 6 Circle is also about 4-5 feet deep, and is set on a slightly lower plane.

DORNOCH HERITAGE SOCIETY.

VISIT MADE SATURDAY 7 DECEMBER, 1991.

(J.K. Bell and S.J.T. Robertson.)

VISIT MADE : SATURDAY 24 Oct. 1992.  
J. K. BELL & S. J. T. ROBERTSON

This Hut Circle lies about 12 yards on the west side of the main N.-S. Forestry Road some 65 overage paces north of the north boundary of the Forestry Experimental Plantation in the old gravel quarry. It is overplanted with trees.

*Small handwritten note or signature in the bottom right corner.*
