Lillian Darling:

We were delighted to
get your fine letter from
Dornoch and the news about
all the folks brought us
right in touch with them
once more. The boys must
be a great joy to Aunt Jean.
From what Jim & Arneas say
Dornie must be an unusually
fine lad. Of course Georgie
is different but I'll wager
he is a kindly sweet boy. He
has enough pluck for a dozen
& some day will make his
mark in the world - it's fine

2/ That - you are able to keep in touch with those youngsters as they grow up. I hope you may have an opportunity to see the Kameens. a day or two ago I had another note from Bobby, he was docked in New York & aboard the "Mauretania"

There is just one line in your letter which hurts me. "I'm glad to be here in this country far from America" - you didn't mean that - really. You must realize that - all you & your Daddy has in the world is here & there is one tie which must ever bind your heart to America, you are an American citizen. and

Miss Lillian G. Ross
c/o Miss Conchie

I were obliged to come under
British rule you would not-
like it so well; we have
many faults; but with it-
all this is the greatest country
on earth; you are and must
first of all be a loyal American.

Arneas has at last written
me, and he tells me that
Aunt Jeannie is quite comfort-
able & as happy as possible
under the circumstances. I
will write her in a day or
two.

I was much pleased at
your description of the walks
you took around Dornoch.
It was easy for me to follow
you, many a time I took
those same paths - on Sunday
afternoons your name & I used

4/ to walk towards Camrose (Passic-
Kylernis) ~~and~~ through the
woods & back home along
the hill back of Oakley -
& we often went down by
the shooting range along
the shore & back to the
Grange - happy memories which
I recall so many many times.

Yesterday we all (7) went
to lunch at the Dr. Harvey's
in Milford. Today Mother
has gone to Boston with
Miriam Thompson, Eric &
I go to Prov; on business.

I hear the Macnab's are
at the Penns this week
end, we hope to see them
before they leave for Purchase
early next week. Annabelle
New writes Mother so we

hear about - never wings from
others. People are funny and
I know many are ungrateful.

My cold is quite gone, it
stuck to me for nearly three
weeks, which is quite unusual.
I wasn't sick but had a
mean hard cough. Mother is
in excellent health. We are
both looking forward to your
return, and expect to see you
red checked & with a few extra
lbs added to your bones.

The political pot is boiling. We
all pray for Hoover's re-election,
and it looks better for him
every day. The election is on
Nov. 8th.

No more news. Give our love
to everybody & accept deep
love & lots of kisses for the
best & sweetest lassie in all
the world. From your

P.S. The sample of blood is
sent

Daddy
