

It may be of some interest to compare
land expenses (land)

In comparison with the land sums needed
for upkeep & repair to-day, it may be of some
interest to the cost of making the first roads
in Sutherland in the early part of the 19th
century seems indeed

Expenditure on roads is the second largest item in the
~~expenses~~
County Council budget for 1954-55, being exceeded only by
Education; it ~~is~~ ^{may be interesting} curious to compare the large sums needed
for upkeep and repair only, with the cost of making the
first roads in Sutherland in the early part of the nineteenth
century.

At the beginning of the century, Sutherland was
roadless and there was only one bridge in the county, that
at Brodick. Travellers from the south, having braved the risks
and discomorts of crossing the firth by the Meikle
Ferry, when they landed, had as their only guide, the greener
appearance of the surface and the ruts which marked the
line for a carriage to follow. The road from Golspie to
the Ord was no better than a rough and dangerous pathway
running by the sea shore.

from these primitive conditions. The genius and energy of Telford were employed in making a general survey of the Highlands, and his reports and recommendations enabled the Commissioners to direct successfully the greatest public works yet undertaken in the Highlands. Nevertheless many difficulties were encountered in laying the foundations of a ~~proper~~ road system in Sutherland. 6-7

There were no large contracting firms such as ~~xxx~~ we

Mitchell know to-day. Contracts were taken up by proprietors and

Vol 1.

P.30

large farmers who knew nothing of roadmaking themselves and gave out sub-contracts to masons and others who had not always sufficient knowledge of the financial side of their business to avoid difficulties in the payment of their men and in collecting materials. 110

Loch

Work on the roads was begun in 1807, half the expense being met by the Parliamentary Commissioners and the other half by a cess on the whole county. The cost of the road from the Ord to Golspie was estimated for at £10,000 and the continuation of the road from Golspie by the Little Ferry to Crieck cost £5,259. 6 plus three bridges at Evelix

Ospisdale and Spinningdale for £544. Six smaller bridges on this road were contracted for at £100! ¹. ~~The Ferry was~~ ^{little} ~~was~~ in use until the completion of the Mound and its approaches in 1816. As first planned this road reached the shores of the Firth below Criech House, where there was a favourite crossing for the cattle droves on their way south to the southern markets, but Telford after a careful survey decided in favour of ~~xxxxxxakakakakaxx~~ ¹⁰ ~~xxxxxx~~ bridging the firth at Bonar. ⁷⁹

The first report of the Local Committee for Superintending the work on the Criech road is dated May 16th, 1810. The members of the Committee, who included a Mr Cowie, representing the Commissioners, met "at the side of the intended new bridge at Evelix, where the contractors had proceeded no further than the quarrying of stones for it". Proceeding westward, for the road from Evelix to the Little Ferry was as yet hardly begun, the committee examined the work in progress. They found fault with the foundations of the road, which had too large a mixture of clay, with the road drains which they complained were too narrow and with the

Separate

workmen whom they said were not careful enough to separate the sand from the gravel they were laying on the surface.

The contractors were working on the section at the end of the oakwood on the ~~Ledmore~~^{Laidmore}, where the Committee thought that parapets were needed to ~~protect~~^{hinder} travellers on the steepest part of the hillside. Finally they objected--- with some reason-- to the unfortunate Mr Cowie having taken up his residence at Golspie, at such a distance from the work in hand that his inspections could be neither frequent nor effective.

90

well employed

Large gangs of men appear to have been working on the road, the names of over 60 appearing on the pay sheets at Spinningdale. One wonders who were John Smith, ~~alexander campbell~~ where name figure in the hay, ~~the~~ James Fraser, Donald Munro and many others, were they local men, or had they come from a distance attracted by the regular work and the wage which averaged 1/6 to 2/- a day. A typical account of the wages earned is that sent in by John Hay, mason, for work on the bridge over the Autgarve burn at Ospisdale :-

The local smiths must have been kept busy making new tools for the roadmen and repairing and sharpening old ones. Donald Grant, smith at Embo, made 18 new picks weighing about 11 lbs apiece at 8/-¹⁶. Wheelbarrows were also made locally and cost from 13/- to 16/- each, but tools were also bought in Tain,^{the} brought by sea from Leith in one of those small ships ~~employed~~ which carried anything from a load of meal or lime (to a case of books for the minister) or a box of fine china for Lord Ashburton at Rosehall.

87

Meal for the workmen was an important item. For the men Evelix-Criech road it was stored at Cyder Hall in the care of one Alexander Rose, who signs himself "woodkeeper".

Before the Criech Road was finished the road to Tongue was already in hand. This was not completed until about 1819, ~~or cut along the coast~~. The wild country it opened up necessitated the building of barracks for the workmen and the difficulties of getting food and supplies to them must have been great. Lime for the masons, coals for the smith, gunpowder for the "blowers", meal and tools for the men, almost everything came by sea. Meal was bought in Caithness in large quantities, a typical purchase was 245½ bolls bought from James Craig, virtual merchant at Thurso in 1814 and

shipped to Tongue in the sloop Betsy of Rispond.

She also carried 6 doz pick handles and 24 wheel barrows. at
21/- each. This was expensive but then the wheel barrows
were made by Alexander MacKidd, whom Craig calls "the finest
tradesman in the country" and he says they are worth the
price. The meal was stored at Tongue and carried on horse-
back to the men as required. Nevertheless Lewis Clark,
contractor, writing on June 16th 1816, complains that he has
only four days provision in hand for 150 men and that they
had had no salt for a fortnight, ^{heat} which was a hardship to them.

Lewis Clerk was one of those who came to grief with his
contract. His bridge at Lettermore had to be rebuilt and he
himself, ailing and wretched writes from Alness that the is
reduced to teaching a parcel of children with no salary. His
contract had to be finished by two other masons.

Telford's iron bridge at Sept? Bonar was begun in Oct
by Nov 1812-

Bonar Bridge was begun in 1812 and finished within
a year, the coast road was finished and the ¹⁸¹³ bound was opened in 1816

~~but if he wanted to go Bonar~~ ^{Scotney}

bridges on his estate, but he still had to ford the Shin river or go down to Bonar by water, in his boat the Anna Maria. ¹⁴ 25

The Shin bridge was built by Messrs Munson and MacFarlane in 1822. It was designed by John Mitchell, Telford's Chief Inspector, who made frequent reports on its progress. ¹⁵ 70 men were employed on the ~~work~~ ^{bridge approaches} including 20 masons and 4 carpenters, Mitchell passed on a request by the contractors that they might be allowed to bring the stone for the arches from the Moray Firth, just below Cadboll House and this request was granted on condition that the same stone was used for the string course and the parapets coping of the parapets. ¹⁶

Even before the roads were completed the question of repairs began to arise. John Mitchell died in 1824, worn out by the ceaseless travelling ^{entailed as Chief Inspector constant exposure} ¹⁷ ^{bad health} weather. He was succeeded by his son Joseph Mitchell at a salary of 500⁰⁰ a year., plus 11/- per day for travelling charges and 8d a mile. In his first year he travelled 4,526 miles, but he was a young man and conditions for him were much easier than they had been for his father. ¹⁸ ¹⁹ in the early years when ~~the roads~~ ^{bad} the roads were still unmade.

was the gift of George Denholm of Elles.
Presented by Bertha Brough for many years

~~✓~~ ~~✓~~ destroyed
Telford's graceful iron bridge was swept
away by floods in 1890 - left a marble tablet
commemorative, with an inscription commemorating
the works of the Commissioners of Roads & Bridges -
was saved & re-erected on the modern
bridge which ^{now} spans the river. This tablet
was the gift of George Denholm of Elles - for long
it must have been a great day when the first
mail coach - carrying the mails from the
country clattered over the n.

It must have been a great day when the
coach carrying the mails from the country
first clattered over Telford's graceful
iron bridge & proceeded on its way north

A white marble tablet - with an inscription
commemorating the labours of the Commissioners
of Roads & Bridges was erected on the
side of Telford's graceful iron bridge
before it was carried when the bridge
was destroyed by floods in 1890 - was
re-erected on the modern bridge that
now spans the river. The tablet

Baucle #D included - James Davidson
contract signed & dated 29/8/1815 for 23 Bridges
on the Tongue Road - beginning at the (cross) &
going over the 4th, 5th & 6th Sections, to Bonar
Bridge - 23 Bridges to be turned by 1816

He had to quarry & lead the stones, burnish &
mortar, lime & other necessary materials & the
tools & other instruments of workmanship required
by the term of blastings 1816. His Captain
George Brown of Monkwood.

Contract price £1,700.

Baucle #9 A

Summer 1832. Thos. Peacock against D.G.
In 1810 - he was preferred as contractor for the Skibo
Road - Net price of contract £4,363.
He was also preferred as contractor for Tain Rd 1813
at £8,000.

Claimed also a partner in the Tongue Rd -

Contract price £15,770 - plus £145 - 10 - making
a total of £16,913 - 10. It seems to allow of £82 - 10 - left the net contract at £16,831.

D.G. denied this.

Final Settlement of Tongue Road 5th Aug: 1820.
Statement for D.G.

Primer of Treating Society Inn - 22 - 9 - 1823 -
 £40/- to be raised for repairs to equal grant of
 Commissioners for like sum -

Lord Melville - Was brought at the Admire Sale
 for 15/- & 3 pence "Holly Family" £2 - 6 - 0 -
 Miss Stevens 5/- at Knockbreak Sale -

11th May 1821.

at a meeting of the Heritors & T.P.s of the Co. of S.

It seems contract for the Rail Diligence from Inverness
 to Thurso had to be renewed - letter produced from the
 Secty to the Lord of the Treasury - saying they would
 relinquish the mileage duty on said Diligence, & the
 Counties of S. & C. would agree to increase their
 subscription towards the expense - in the same
 proportion viz - £400 instead of £200. This was
 agreed -

18/8

Drawn Estimates for the County accounts for 1818 -

For 9 1/2 mile stones - from the Old to Bonar Bridge
 to Tongue - with the freight, carriage, measurement of
 the road may amount to 20/- each - £97 -
 (They were to be made of granite,) this sum of
 £97 included erecting them.

To repairing Bonar Bridge - £150 - 2/3 of this may
 fall to the county £100 -

~~Six tract~~Minutes of the Trustees, 11th Dec: 1822.

That the new leading ^{eastwards} from the Skin Bridge to be proceeded with as early as the season will permit next year - (1823)

William Farris - contractor for the road from Dornock to Cutnall
William Butay Goldthall offered to keep the new road from Dornock
to the Heidle Ferry in repair from Martinmas 1822-23 for £3.0.0

James Brander was a waster in Golspie - clerk to the Trustees

State Statute Labour - Tax payable at 4/- a hand - on colliers
labourers, fishermen, boatmen, tradesmen, artificers' journeymen
& apprentices - (excepting servants hired for less than) & all other
persons above 16 years of age - From masons, carters, carriers
& other person keeping any horse, ass or mule, etc - for each such
horse, ass or mule 5/-

^{Repair}
£10 for repairing Statute Fleet road -

From the Clerks of Salopie to Dumfries £11
horses to Kildonan £24

The final inspection of the skin Bridge took place on
15th November 1822

Riachs Sorinale - from the River Cawley to Loch Inver

£513 - 6 - for roads

2166. 10 for bridge

& for roads & bridges from the Bridge skin to the

Mil of Achendruich (?) £1.367. Total £7047. 5 - 8

In another half this says road from Cawley to Inver £7047

£. 513 - now

Letter by Messrs Buchanan & Reikle - dated 24 March.

1810 Offering to build bridge of Felix. Expenses
of Spennydale for £600. with a 4 ft arch at Spenny
~~to be built~~ ^{at} a small arch at Spennydale over the burn (and).
6 small bridges to cost £100.
to be finished by 30th Sept. 1810.

Taxis 14th Feb. 1810. says price agreed on £880 -
but the storm of snow has prevented him working over
to begin quarrying.

3rd Septth 1810. the work was advanced & they had received
£340 - & were to get another £60.

Meal for workmen stored at Gidea Hall, in care of
Alexander Rose - Woodkeeper.

1809 Nov 25. Long account with Michael Brabant for
road sh: to Crieke at 12/- per rod -
dit & tools given him.

Mr. J. Reikle's tools account. value

4 Shovels. 4/- each -
2 wheel barrows - £1 - 10 -

workmen have paid various sums but seem to have
account as - Day ^{Souls. 2}
Slops for the working of Spennydale Bridge - bought from ^{Woodstock}

Lewis Clark

Letter - Tongue 16 June 1816 -

The men have no salt - for their meat - & had not had salt - for
a fortnight - & there was only 4 days provision of meat in
hand -

3rd July - 1816 - Ready to begin the bridge at Almasharrow
men short of meat - & there were 150 men on the line
- there is no meat for them in the country, & they are short
of Cash too - & we being all not forgotten altogether

Bridges on the Tongue Road.

Lewis Clark - Bridge of
Aldness - 1815-

1815 In his account with Lewis Clark for work
on Bridges on the Tongue road the following items appear
Lewis Clark's Contract was for £1700-

To Mr. James for timber 40

Receipt of a parcel to Tongue 20

Line & hammers from Orkneyshire 29 - 17 - 11

Cash paid to Mr. Orkney & his Sons 36 - 13 - 6

Sale even 25 Bolts of Meal from Spincydale -
at £1 - per bolt.

8 of Meal from Tongue 171 bolts between Dec 1815
& Oct 1816. The price for this was from 21/6 to 2.06
24/- & 25/- per bolt. A total of £200 - 19 -
for meal alone -

The Bridge of Aldness had was condemned & had to
be rebuilt

A letter from Lewis Clark to say he was owing to his
not being able to attend to the work here says - He was
laid up with a bad leg - & was supporting himself by
keeping a school & teaching a parcel of children "with no salary". He had apparently no money to
pay his workmen -

In 1817 - Alex Munro & Kenneth Duncan under took
to finish the bridges & be responsible for their work
for the remainder of the time for £50.

26 Bridges - between Tongue & the N. Side of
the Crags from off set span to 32 ft.
24 or 6 ft. for 94 between Bonar & Portnethal

Criek Road

Contract - between Mayor & D. G. & Thomas Peacocke -

8

Thomas Peacocke - " formerly employed on the
Caledonian Canal."

The 3 bridges to be built - fit 600 - were Gaels
Guisdale & Spinningdale - & 6 smaller bridges
for £100 - & a small bridge at Tinnachlass -

The masons for this work were Robert Heikle,
Hanson in Kilmuir, Don² Mackenzie, Hanson, Tain
were to build the bridges -

There seems to have been an idea of building
the bridge over the River at Criek, as this was
a favourite crossing for cattle - the width of the
passage being inclusive of abt - 3000 ft 56 yards -

$$\begin{array}{r} 50.262 \\ 29.537 \\ \hline 79.799 \end{array}$$

Fripp Reed -

Smitte Bills 1817 -

The meal was carried on horse back to
the men from the store. John Ross was the
meal carrier. a pair of shears for his horse cost 2/-
Picks were sharpened for 3° each - or 4°

"keeping a pick" 3/- £ 1/6

What were "jumperos"?

Wedges - also had to be sharpened

Aug 19, John McPherson & his son "blow" & grubber -
+ 4 inches -

20th same 1818 - took "Smitte Alex" Durno, Smitte
writes to the major that he has had only 1 bag of
coal, & is now out of coal - can a cart load be
sent to the Creek, he assures the major that the
coal is being stolen at Saing - He also wants 6
pick shafes - & 4 shovels

Alex. Durno - received £1/- 5/- for 94 days work -
1 half meal - £1 - 16 -

The blokes 1818 -

184 feet - of blowing at Crappy - Rock - under
Cumming - & 11.9 under Calder

196 - 5 hours & blowing at 2/- foot. £ 19 - 12 - 10
43.2 rock in the river at Altanaharra. 4 - 6 - 4

Pickader from Tain £3 - 6 - 3

Quarries paid 2/6 - per day -

7 lbs powder - .50 lbs powder - £3 - 2 - 6 -

Contract Price £26,474/-

Major Gibbiet contracted ^{See account book} for the road works of the little Ferry - from Drumvis to Crich & Bonas - the contract is made out in 1810 - & includes 3 bridges - Erelix - the Cullagars [&] at Springford, ~~at~~

There were difficulties connected with the road on the N & S. side of the little Ferry, from blowing sand. The first specification for it was apparently to be causewayed - but this was unsatisfactory so it was determined to ^{Gravel} make it & edge it with turf to keep the metal "boxed".

The 1st report of the Local Committee is dated 16th May 1810. They met "at the side of the intended new bridge over the River Erelix".

Attended by Mr. Cowie. "the person whom they understood to be employed by Mr. Hope to superintend as Overseer."

The Committee proceeded to examine - it being understood that there was little or nothing done yet to be examined upon that part of the

Bowd
att.

line extending from Fowey to the Little Ferry.

The Bridge at Fowey had only ten stones
swallowed for it -

Everywhere it was in an unfinished ~~state~~
state, & the Committee found fault with
the road drains, & also with the material
used for making the road - the workmen
not troubling to remove the sand from
the gravel.

They said Cowie had no copy of the specification
& resided at Golopie, 12 to 16 miles from the
work.

The work must have begun very early in
1810 - but apparently large numbers of men
were at work - 70 names mentioned of men
working on the Springfield stretch of road -
£600 was to be paid for building the two
large bridges & the arch of 4 feet span at
Knockglass -

The oak wood was there on the Laidmore
& they said there were no parapets to the
Great Works, which made it dangerous -

Roads. Tongue Road Bunde - 87

The lime & tools had to be got on the ground
barrows built for the men & meal provided
for their food. Price of this was bought £ 10/-
& then carted to the site - either from Tongue or
Bonar Bridge. One sees numerous accounts -
such as " 580 bollo's of lime shipped on board
the sloop Lewis, Captain Edward - at 1/- £ 29/-

24th June
1815

Redytree

" 6 carts paid 12 road barrows at 25/- ea:	£ 15 - 2 -
& carriage 2/-	
To 8 bollo oats 17/-	7 - 0
To a quarry hammer ordered by Lewis Clerk, mason.	17 - 11

Gun powder another item - sent by
James Walker to Tongue - with deal
wood

Heal 140 bollo at 17/- bollo.
shades, shovels -

22nd October 1814 - James Craig - Thurses. The sloop Betsy
The sloop Betsy loaded with meal - & Rishon
France much wanted by the farmers -

26 wheel barrows at 21/-
6 dy. pitch handles, these made at Thurses.

Skin Bridge -

12th Aug. 1822 . from John Mitchell.

workmen preparing materials for the arches — have begun to turn the arch on the west side — The contractors began on Saturday to set up the centering for the 2nd arch middle arch using freestone for the outside of the arches —

Hunson Contractors were — Hunson & McFarlane —

22 July 1822 — John Mitchell — from Bonar Bridge —

reports:— as no rock ~~for~~ foundation of the piers could at any reasonable depth, the foundations of the piers & abutments were secured by driving about 60 piles under each — on the tops of which & at a depth of about 2 ft 6 in under the bed of the river flat forms were laid — on which the masonry was begun & since that time the piers & abutments have been built to about 7 feet above the spring & the small arch over the tail (end) has been finished — Excellent materials & workmanship

asked about 6000 of arches — to be taken from the shores of the Moray Firth. (off Cadboll (now)). The 3 arches should be of the same colour —

The 2 foot arch on the P. approach is now in hand)

Fitchell. (cont.) (22nd July 1822)

In the whole works about 70 men have been employed
including 20 masons. 14 carpenters, labourers etc
Contract not yet signed!

Estimate of work performed to date £860 - 0 - 0.
Letter from Father (?) Rhine — mentions King Stone
of the arches.

The same stone used for the Bonds or Flying Stones —
proposed for the string course & parapet — (by themselves)
by war's from Brodgar Quater

Contract sent ~~for~~ ^{on} signature 14-8-1822
also to Davidson for repairing improvements

to Tongue roads.

25th Sept — Fitchell makes good report. £500 to be paid
when works will be finished next season.

4th Oct 1822 Extracts from Minutes of Meeting 4th Dec / 22
Mr. Riach had surveyed road from Skin to dock Inn.
Estimated expense — roads £3,513 - 1 - 0
Bridges £2,166. 10 - 0 -

for the road from the Bridge of Skin to the pier of Achenside —
£7,047. 5 - 8.

Fitchell - 18 December 1822

The walls above all below the 8 ft arch on the S. side
fallen & must be rebuilt — otherwise bridge forsaken
Ballanay £435 owing.

James Davidson - Ham. Building bridges on the N. end of
the Tongue Rd. (continued)

Letter - date) 14th Dec⁶² 1816.

He says all bridges finished & painted - but he had another
1st hitched to a car - the bad weather in Novth the painting work could
not stand. He had to keep bridges in repair for 3 years
'Barracks' built at the tracks for two workmen

On 16th May 1817. Peter Brown is writing to all money
owing to Davidson should be paid to him - so as to prevent
him squandering it.

By Nov. 1818 - the bridges all completed (by Telford) &
declared satisfactory - but disputes about payment
still prevail - evidently J. Davidson was a good workman
but drains like a fish!

His contract was for £1700 - from which was deducted
£50 for bridges not required, 2 £60 for a bridge two acres
instead of 3. £1590.

Mrs Peter Brown of Linkwood - Mitchell. Vol I p. 142-3
was the factor for the Earl of Seafield - & also for the Duke
of Novar - A man so "upright & honest" - brother to
General Sir George Brown 2nd in command in the Crimea

D. G. II papers on roads.

Letter 26th Jan 1815

from James Davidson mason, offering to build 24 bridges on
the Tongue road for £2,030. (on the north end of the
Tongue road -) 8 of 6 feet span, 3 of 4 ft, 5 of 8 ft,
2 of 10 ft, 2 of 12; 2 of 24 ft, & one of 32 ft. = 1 of 3 arches
1 arch of 24 feet & 2 of 20 feet. (64 feet in all) His offer
was for "to afford all Meteareels (?) cast- foundations &
to build the mason work.

James Davidson came from Poltress near Elgin.

Davidson got this contract & there are a number of letters
from him on payments. He seems to have lived on the
crack while working on the bridges. He states on one letter
that his men also came from Poltress.

Davidson surely was by Geo: Brown who says D. was a
good workman, who had always pleased M' Telford - "if you
keep him from the whisky." Letter dated 11th January 1815 from
Linkwood -

Roads. Doraw late- Parish Life in the N. of Scotland

P. 408. 109

"The present excellent public road which runs through the County of Sutherland was, at the time I speak of, not in existence. In view however of a broken muffed pathway, running by the sea shore from the Old Head to the Heikkle Ferry - at Durnoch, instead of going to the North of the Castle of Durnoch as at the present time, it descended to the sea-side passing about 2 miles to the East of the castle, right below it & so round by the south.

Mitchell. Vol II p. 126.

"The Sutherland Road from Inverness to Thurso which formed a very important part of the Highland Road works of the Board & was then a very formidable undertaking."

The water at high tide from the river Fleet was over 10 feet.

With - The road across the Old to Leitch was only finished
Old in 1814.

Population in Sutherland 1810 - 23,689.

Heikkle Ferry & dittle Ferry.

"The boats used for crossing these ferries were of the most wretched description & the crew

no laundry tiers or roads of approach beyond
such bridle paths or footways as suffice
for the limited intercourse that existed in
the country.

"Also

George Sutherland of Forres, & Sir Robert Gordon of
Gordonstoun disputed the correctness of the
title -

In the 12th Report of the Commissioners for the
Repair of Roads & Bridges - the following items
are noted -

P. 2
The commissioners hope - by means of the junction
road of the Fort William & Dagen road to supersede
in a great degree the necessity of maintaining & repairing
the difficult road over the Corgarrick mountain.

3
The surface of the road (Badenoch) at Belville was
frequently overflowed & the stage coaches had recently
been obstructed there. (November 1825)

Floods had destroyed more than one bridge - 1 bridge
over the Spey at Dagen Kirk

Toll gates have been erected at Conon Bridge -
Noon, Deer Park. Knockbreck near Taun. & in the
county of Caithness - Wick & Thurso.

Land Court Letter.

I have sent all the Land Court papers I have which refer to the Land Court Record of your holding and the taking over of the abut by Mr. Lethbridge & Mr. Macaulay who to tell the truth I am not sure which buildings you are referring to. My recollection of your holding is that there is a good sized cow shed besides the house. Is this the building which was broken and alight and put on subsequent to the former negotiations?

Had I had any information about your buildings and holding before I came north this spring I would have brought those papers with me, which would probably have saved you a great deal of trouble.

So I have not now got the Land Court Record here - I cannot reply to your letter -
I am not clear which buildings you
refer to - There is a good sized cow shed
against ~~next~~ the house - if I recollect correctly the
~~Recd~~ says this was repaired by the tenant who
put up the stalls - This I believe to be correct
But I have not a copy of the Record
